The SanikuDuo bath with integrated side access

The SanikuDuo bath gives you new-found freedom.

Make more of your bath – get rid of your shower! The new SanikuDuo bath from Saniku combines the advantages of a shower with the comfort of a bath. The functionality is as impressive as the design is unusual: say goodbye to acrobatic manoeuvres when climbing in and out of the bath, and simply step in through the elegant door made from safety glass. All you then need to decide is whether you would rather take a bath or a shower. The door closes automatically with an electronic safety catch and is completely waterproof. The optional shower door is perfectly matched to the shape of the bath and guarantees maximum splash protection.

The SanikuDuo bath is available in the sizes L 170 cm x D 75/85 cm and L 180 cm x D 80/90 cm.

Battery compartment of the electronic safety catch

Ergonomically shaped seat made from slip-proof plastic

For easy access
